## PROFILE

I am a Software Engineering student at BCAS Campus, developing expertise in Software Development Life Cycle, Service Computing, Web Design, and Project Management. With experience in online retail, sales, and marketing at M Tec Lanka, I've gained practical IT skills as a part-time Software & IT Support Associate at Fexten Solutions, contributing to SME software projects. I am focused on fully transitioning into IT to apply my combined technical and business knowledge.

## WORK EXPERIENCE

### M Tec Lanka (Pvt) LTD

FEB'2024 - PRESENT

*IT Support Executive - Computer Hardware & Invoicing Software Support Executive*

- Provided end-to-end technical support for computer hardware, including installation, troubleshooting, and preventive maintenance.
- Installed, configured, and maintained invoicing and billing software (ERP - Syssoft), ensuring accuracy and smooth business operations.
- Managed sales invoices, showroom cash handling, stock monitoring, and audit queries related to expenses and inventory.
- Collaborated with vendors and internal teams to implement software updates, perform system backups, and maintain data security.
- Assist staff with software usage, resolve technical errors, and ensure data accuracy in billing systems.

### Fexten Solutions (Pvt) LTD

Nov'2024 - July 2025

*Software & IT Support Associate*

- Worked on developing software for SMEs to manage cash flow, inventory, HR, finance, accounting, and client relations.
- Provided web front-end development solutions and IT support to ensure smooth system functionality.

### ielecro.lk

2024 - 2025

*E-commerce Operations*

- Previously managed customer inquiries, orders, and deliveries, ensuring a seamless shopping experience for clients.
- Gained hands-on experience in e-commerce, social media marketing, and business operations, contributing to growth and customer satisfaction.
